Attaching and Detaching Databases.

Version 0. 1

Prepared by: Michael Davis- Hannibal

Softcon Software Control Services (Pty) Ltd.

7 March 2017

Revision History

| Name | Date | Reason For Changes | Version |
|------|----------|--------------------|---------|
| MDH | 5-Nov-10 | Initial document | 0.1 |
| | | | |

Contents

| | |
|-----------------------------|---|
| 1. Steps | 3 |
| a. Detach a Database | 3 |
| b. Attach A Database | 3 |
| c. Create Softcon User..... | 3 |

1. Steps

a. Detach a Database

- i. To detach a DB simply right click on the database and select tasks, detach.
- ii. Place a tick under drop connections, and click ok.
- iii. Locate the database in the folder they were created, and copy them to the new location on the server. I would suggest the database folder within softwin3.

b. Attach a Database

- i. To attach a DB right click on databases and select attach
- ii. Click the add button
- iii. Browse to the database location, select the database and click ok.
- iv. Within the newly attached database browse to security, users.
- v. Right click on softcon if it exists and select delete, this must be done in all the softcon databases(DB_SOFTCON_DATA,AUDIT,ACCUME,LOGGING)

c. Create Softcon User

- i. Under the SQL server locate Security right click on logins and select new login.
- ii. Under General the Username: Softcon
- iii. Select SQL Server Authentication
- iv. Password: \$0ftc0n
- v. Remove the tick for Enforce password policy

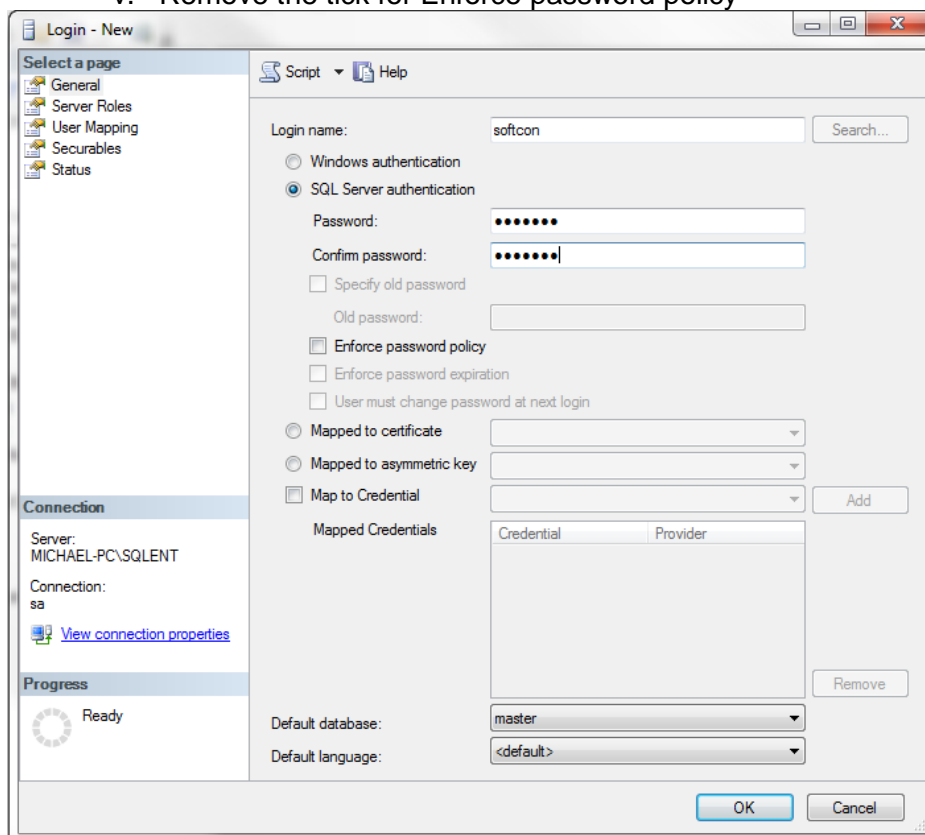

Figure 1: New :Login- General

- vi. Select User Mapping on the left pane

- vii. Place a tick next to DB_SOFTCON_ACCUME in the Users mapped to this login.
- viii. In the section 'Database role membership for...' place a tick next to db_owner.
- ix. Do this for all DB_SOFTCON_ databases.

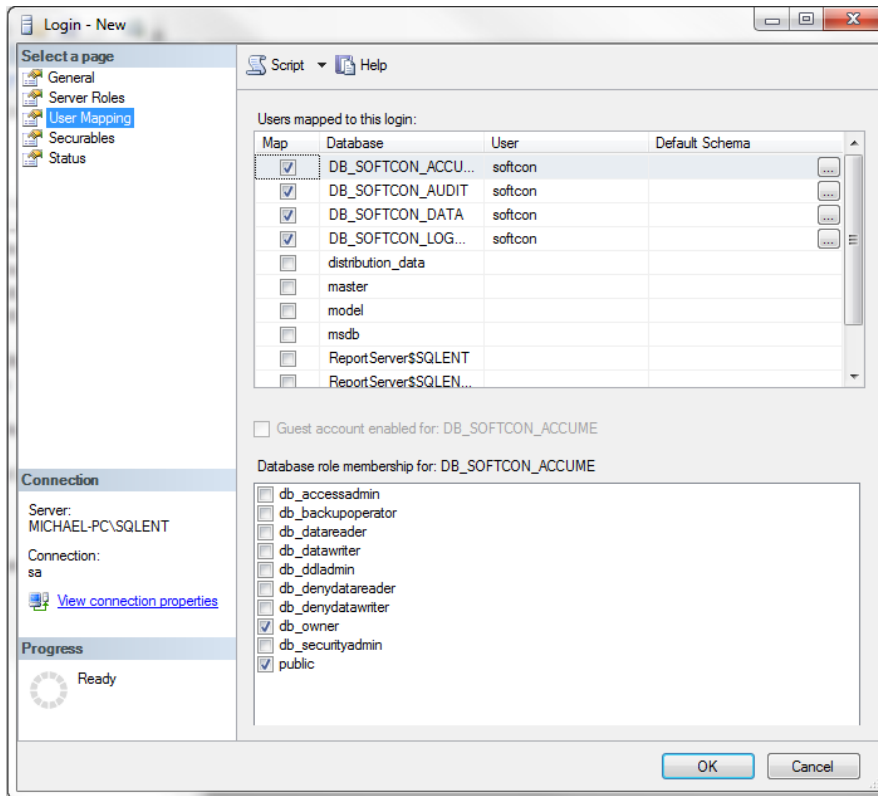

Figure 2: New Login- User Mapping

- x. Select status in the left pane
- xi. Ensure that the user can connect to the database engine and login.

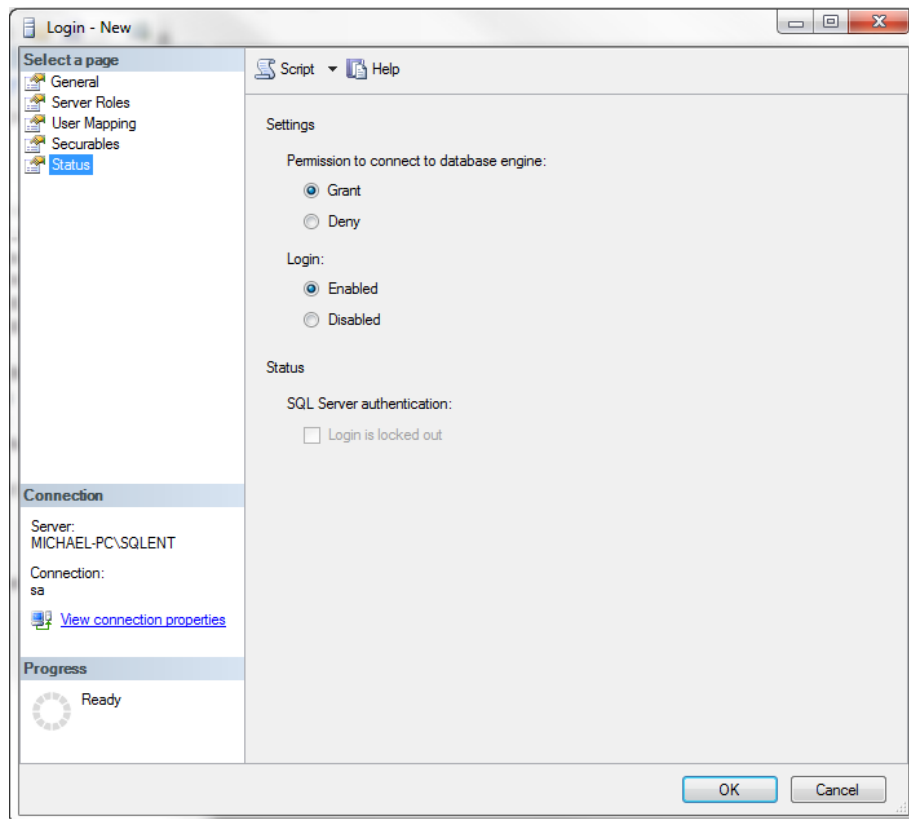

Figure 3: New Login - Status

xii. Click OK. The user should now have been created successfully.
